Description	Qty	Cost	Total
Since it is impossible to determine where and how far into the surface of the earth water may be found, we do not agree to find, develop, nor guarantee continuance of water flow, nor do they represent, warrant or guarantee the quantity, quality, or kind of water, which may be encountered. All operations are at the risk of the Purchaser, and failure to strike water shall in no way release the Purchaser from payment of the full contract price. Since the nature of the well drilling operation is such that lawn and shrubbery will to some extent be removed or damaged by the drilling and trenching operation, the cost of restoring same will not be part of this contract, unless by special agreement. Any additional footage drilled or casing required to obtain an adequate water supply will be charged at the prevailing rates shown. DUE TO VOLATILE FUEL AND STEEL PRICES, PRICES QUOTED ARE SUBJECT TO CHANGE WITH OUT NOTICE. Under no circumstances can Claverack Pump Service LLC guarantee the depth of the well, the gallons per minute or the texture, chemistry, or purity of the water.		0.00	0.00T

ATTN: Robert Valentine, Supervisor and Board Members

**RE: TOWN OF CHESTER TAX LOT 13-3-2
KINGS HIGHWAY
WATER SUPPLY**

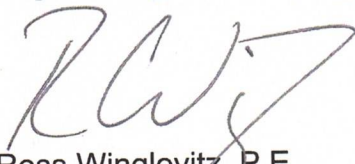

Dear Supervisor Valentine and Board Members:

We would respectfully request to be scheduled for a meeting with the Town Board for consideration of granting outside user status for the referenced property for water from the Sugarloaf Hills Water District. If granted, the plan would be to connect to the water system on Creamery Pond Road run through the Town's Lycian Theatre property, continue through the referenced property and terminate with a fire hydrant and future stub connection at Kings Highway. A service connection tap will also be provided for the Theatre as part of the improvement. This improvement will provide fire protection to the theatre and to the south end of the hamlet area.

As there is a benefit to both parties the owner of the referenced lot would propose a cost sharing for this improvement. The owner will provide all survey, engineering and labor associated with designing, permitting, and building the improvement and the Town could purchase the pipe and bedding material on state bid.

We look forward to discussing this with you and thank you in advance for your consideration.

Sincerely,
Engineering & Surveying Properties, PC
