Re: SEQRA
Industrial Building Construction Project
Davidson Drive, Orange County, NY
21PR05958

Dear Al Cammisa:

Thank you for requesting the comments of the Division for Historic Preservation of the Office of Parks, Recreation and Historic Preservation (OPRHP) as part of your SEQRA process. These comments are those of OPRHP and relate only to Historic/Cultural resources. They do not include potential environmental impacts to New York State Parkland that may be involved in or near your project. Such impacts must be considered as part of the environmental review of the project pursuant to the State Environmental Quality Review Act (New York Environmental Conservation Law Article 8) and its implementing regulations (6 NYCRR Part 617).

OPRHP has reviewed the Phase I Archaeological Survey Report entitled "Phase I Archaeological Investigations at Lake Station Road, Town of Chester, Orange County, New York" prepared by TRACKER Archaeology, Inc. (March 2021; 21SR00644). No archaeological sites were identified by the survey. Therefore, it is the opinion of the OPRHP that no properties, including archaeological and/or historic resources, listed in or eligible for the New York State and National Registers of Historic Places will be impacted by this project.

If you have any questions, I can be reached at Jessica.Schreyer@parks.ny.gov.

Sincerely,

A handwritten signature in cursive script that reads "Jessica E. Schreyer".
