- 1. Regarding the long form EAF, it indicates that there are potential for endangered species. Identify the species and provide mitigation measures, if necessary, as per NYSDEC mandates.
- 2. All lots appear to meet the minimum requirements of the SR-1 Zone of the Town of Chester.
- 3. Soils testing for each individual lot must be witnessed since this application is no longer for health department approval. Contact this office to schedule an appointment.
- 4. Street trees to be installed outside of ROW.
- 5. Submit plans to Highway Superintendent for review of all driveways on Ridge Road.
- 6. The plans show an offer of dedication within 25 feet of the centerline of Ridge Road. The legal dedication documents should be submitted and executed as a condition of approval.
- 7. Board comments.
