Woodstock, NY 12498

March 29, 2017

Town Of Chester / Planning Board
1786 Kings Highway
Chester, NY 10918

Written Narrative:

The scope of the project is to rebuild existing signs located on the Seely Brook Farm, SBL (3-1-72). The sign locations consist of 7 sign faces, three sets of two and a single sign face. Project consists of replacing wooden structures with steel poles that will be conform to modern safety standards and size. The project will not affect traffic flow, or parking. The hours of construction will be 8-5pm, Monday through Saturday. The old wooden structures will be removed and the land graded around the base of the new pole structures. The new sign faces will all be 14x48 in size with a height of 35'. No Signs will be digital. The Engineer is Outdoor Specialists, a sign fabrication company that engineers, fabricates and Installs theses type of sign poles all over the country. Sage Outdoor, Doug Barthel is the Developer. The signs will all have low dispersion upward lights on the sign faces.
Thank you for your time and consideration.

Sincerely,

Douglas Barthel
