Short Environmental Assessment Form Part 1 - Project Information

Instructions for Completing

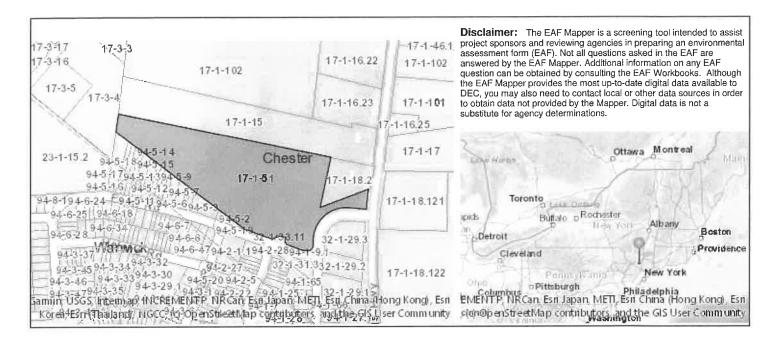

Part 1 – Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 – Project and Sponsor Information				
Name of Action or Project:				
Proposed Installation of New T-Mobile Public Utility - Telecomminciations Facility				
Project Location (describe, and attach a location map):				
Water Tank at 50 Evan Road Warwick, NY 10990				
Brief Description of Proposed Action:				
The proposed action is the installation of a new Wireless Telecommunications Facility locate new concrete equipment pad with radio equipment cabinets and an emergency backup gene pipes on the face of the water tank with a total of eight (8) antennas and eight (8) radios (two trays for new cabling on the water tank, and new utility conduits routed from the proposed contracts of the conduits routed from the proposed contracts.	erator, four (4) sectors of anten (2) antennas and two (2) radio	nas on ne os per se	ew steel m ctor), new	nounting cable
Installation is an eligible facilities request in accordance with 47CFR Sec. 1.6100.				
Name of Applicant or Sponsor:	Telephone:			
T-Mobile Northeast LLC	ile Northeast LLC E-Mail: JohnPaul.Poplawski@t-mobile.com			
Address:				
4 Sylvan Way				
City/PO:	State:	Zip Co	ode:	
Parsippany	NJ	07054		
1. Does the proposed action only involve the legislative adoption of a plan, loc administrative rule, or regulation?	at law, ordinance,	1	NO	YES
If Yes, attach a narrative description of the intent of the proposed action and the environmental resources that may be affected in the municipality and proceed to Part 2. If no, continue to question 2.				
2. Does the proposed action require a permit, approval or funding from any oth			NO	YES
If Yes, list agency(s) name and permit or approval:			~	
3. a. Total acreage of the site of the proposed action? b. Total acreage to be physically disturbed? c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor? 9.9 acres 0.0172 acres 0.00689 acres				
4. Check all land uses that occur on, are adjoining or near the proposed action:				
5. Urban Rural (non-agriculture) Industrial 🗹 Commerc	ial 🗹 Residential (subur	rban)		
Forest Agriculture Aquatic Other(Spe	ecify):			
Parkland	•/			

5. Is the proposed action,	NO	YES	N/A
a. A permitted use under the zoning regulations?		V	
b. Consistent with the adopted comprehensive plan?		V	
6. Is the proposed action consistent with the predominant character of the existing built or natural landscape?		NO	YES
C. As the proposed devices consistent with the production of the p			~
7. Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental Area?		NO	YES
If Yes, identify:		~	
O WELL I I I I I I I I I I I I I I I I I I		NO	YES
8. a. Will the proposed action result in a substantial increase in traffic above present levels?		V	
b. Are public transportation services available at or near the site of the proposed action?		~	
c. Are any pedestrian accommodations or bicycle routes available on or near the site of the proposed action?		V	
9. Does the proposed action meet or exceed the state energy code requirements?		NO	YES
If the proposed action will exceed requirements, describe design features and technologies:			
The action has been designed to meet the state energy code requirements and none of the proposed work is expected to take inside of conditioned space.	place		V
10. Will the proposed action connect to an existing public/private water supply?		NO	YES
If No, describe method for providing potable water: The action is an unmanned facility which does not require public or private potable water.		~	
11. Will the proposed action connect to existing wastewater utilities?		NO	YES
If No, describe method for providing wastewater treatment:			
The action is an unmanned facility which does produce waste.			
12. a. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district	t	NO	YES
which is listed on the National or State Register of Historic Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the		~	
State Register of Historic Places?			
b. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory?		~	
13. a. Does any portion of the site of the proposed action, or lands adjoining the proposed action, contain wetlands or other waterbodies regulated by a federal, state or local agency?	5	NO	YES
b. Would the proposed action physically alter, or encroach into, any existing wetland or waterbody?	;	V	
b. Would the proposed action physically alter, or encroach into, any existing wetland or waterbody? If Yes, identify the wetland or waterbody and extent of alterations in square feet or acres:		~	
		~	

14. Identify the typical habitat types that occur on, or are likely to be found on the project site. Check all that apply: Shoreline Forest Agricultural/grasslands Early mid-successional Wetland Urban Suburban			
Wetland	14. Identify the typical habitat types that occur on, or are likely to be found on the project site. Check all that apply:		
15. Does the site of the proposed action contain any species of animal, or associated habitats, listed by the State or Federal government as threatened or endangered? Bog Turtle The action is proposed entirely within and just outside of the existing developed water tank compound and access drive and does not involve clearing or working within any additional area that may be considered a Bog Turtle habitat. No YES and does not involve clearing or working within any additional area that may be considered a Bog Turtle habitat. No YES If Yes, a. Will the proposed action create storm water discharge, either from point or non-point sources? If Yes, a. Will storm water discharges flow to adjacent properties? b. Will storm water discharges be directed to established conveyance systems (runoff and storm drains)? If Yes, briefly describe: 18. Does the proposed action include construction or other activities that would result in the impoundment of water or other liquids (e.g., retention pond, waste lagoon, dam)? If Yes, explain the purpose and size of the impoundment: 19. Has the site of the proposed action or an adjoining property been the location of an active or closed solid waste management facility? If Yes, describe: 20. Has the site of the proposed action or an adjoining property been the subject of remediation (ongoing or money) and the purpose action or an adjoining property been the subject of remediation (ongoing or money) and the purpose action or an adjoining property been the subject of remediation (ongoing or money) and the purpose action or an adjoining property been the subject of remediation (ongoing or money) and the purpose action or an adjoining property been the subject of remediation (ongoing or money) and the purpose action or an adjoining property been the subject of remediation (ongoing or money) and the purpose action or an adjoining property been the subject of remediation (ongoing or money) and the purpose action or an adjoining property been the subject of remediation (ongoing or m	☐Shoreline ☐ Forest ✔ Agricultural/grasslands ☐ Early mid-successional		
Federal government as threatened or endangered? Bog Turtle The action is proposed entirely within and just outside of the existing developed water tank compound and access drive and does not involve clearing or working within any additional area that may be considered a Bog Turtle habitat. 16. Is the project site located in the 100-year flood plan? 17. Will the proposed action create storm water discharge, either from point or non-point sources? 18. Will storm water discharges flow to adjacent properties? 19. Will storm water discharges be directed to established conveyance systems (runoff and storm drains)? 19. We specified to established conveyance systems (runoff and storm drains)? 19. Has the proposed action include construction or other activities that would result in the impoundment of water or other liquids (e.g., retention pond, waste lagoon, dam)? 19. Has the site of the proposed action or an adjoining property been the location of an active or closed solid waste management facility? 19. Has the site of the proposed action or an adjoining property been the subject of remediation (ongoing or management facility? 19. Has the site of the proposed action or an adjoining property been the subject of remediation (ongoing or management facility? 10. YES 11. CERTIFY THAT THE INFORMATION PROVIDED ABOVE IS TRUE AND ACCURATE TO THE BEST OF MY KNOWLEDGE Applicant/sponsy/name: James M. Quicked	☐ Wetland ☐ Urban ☑ Suburban		
The action is proposed entirely within and just outside of the existing developed water tank compound and access drive and does not involve clearing or working within any additional area that may be considered a Bog Turtle habitat. NO YES	15. Does the site of the proposed action contain any species of animal, or associated habitats, listed by the State or	NO	YES
17. Will the proposed action create storm water discharge, either from point or non-point sources? If Yes, a. Will storm water discharges flow to adjacent properties? b. Will storm water discharges be directed to established conveyance systems (runoff and storm drains)? If Yes, briefly describe: 18. Does the proposed action include construction or other activities that would result in the impoundment of water or other liquids (e.g., retention pond, waste lagoon, dam)? If Yes, explain the purpose and size of the impoundment: 49. Has the site of the proposed action or an adjoining property been the location of an active or closed solid waste management facility? If Yes, describe: 20. Has the site of the proposed action or an adjoining property been the subject of remediation (ongoing or completed) for hazardous waste? If Yes, describe: I CERTIFY THAT THE INFORMATION PROVIDED ABOVE IS TRUE AND ACCURATE TO THE BEST OF MY KNOWLEDGE Applicant/sponsg/name: James M. Quicksol	The action is proposed entirely within and just outside of the existing developed water tank compound and access drive		~
17. Will the proposed action create storm water discharge, either from point or non-point sources? If Yes, a. Will storm water discharges flow to adjacent properties? b.
