

A detailed, high-magnification microscopic image of a virus particle, likely SARS-CoV-2, showing its characteristic spherical shape and surface spikes. The image is in warm tones of red, orange, and yellow, with a dark, textured background.

# THE COVID-19 PROJECT OF THE MENDHAMS

We are living through an unprecedented moment in our lifetime. Documenting the impact of this crisis on regular people is an important responsibility.

We are collecting the thoughts, feelings and general impact of the COVID-19 quarantine on Mendham residents of all ages for a historical record.

Please share your memories with us; either in writing or through photography or artwork. While you are reflecting, consider the following questions:

- HOW HAS YOUR DAILY LIFE CHANGED?
- WHAT HAVE BEEN THE BIGGEST CHALLENGES?
- WHAT ARE YOUR HOPES FOR THE FUTURE AND HOW HAVE THESE CHANGED?
- WHAT WOULD YOU WANT SOMEONE 100 YEARS IN THE FUTURE TO KNOW ABOUT THIS PERIOD?

---

This project is a joint effort between the Mendham Township Library, the Mendham Township Historic Preservation Commission, and the Mendham Township Committee

A microscopic image showing several spherical virus particles with a textured, bumpy surface, likely representing the COVID-19 virus. The particles are set against a dark background with some lighter, fiery or cellular-looking patterns.
